Education

Java Backend Development
Masai School, Bengaluru
April 2022 - May 2023

Bachelor of Arts (English Literature)
University of Allahabad
July 2020 - January 2023

Technical Skills

- Java
- Spring Security
- Spring Boot
- RESTful APIs
- Systems design
- Data Structures & Algorithms
- MySQL
- Microservices

Soft Skills

- Teamwork
- Adaptability
- Time Management
- Problem Solving
- Effective Communication

Aman Verma

Java Backend Developer

Professional Summary

Diligent Java Backend Developer with expertise in Java, Spring Boot, and SQL, skilled at designing efficient server-side applications and seamless API integrations. Adept at leveraging Generative AI for innovative solutions and quick adaptation to new technologies. Strong problem-solving and collaborative abilities enhance backend system performance and security.

Experience

- MatreComm Technologies Pvt. Ltd.**

Software Engineer

June 2024 - November 2024
- Developed high-performance backend components and RESTful services in Java to ensure scalable and resilient web applications.
 - Conducted code reviews and contributed to continuous integration and deployment (CI/CD) pipelines, ensuring high code quality and smooth releases.
- Wishfy Technologies Pvt. Ltd.**

Software Developer

July 2023 - June 2024
- Transformed the company's vision into functional digital products, including a web application and mobile apps, resulting in over 10,000 downloads and increased customer engagement.
 - Designed and developed server-side logic using Java, ensuring optimal performance and scalability of web applications.

Projects

- ShopEasy - Online Shopping App**
